MIRKA

Mirka Orbital Sander

The unique symmetrical design makes it just as comfortable whether it's being used in the left hand or the right hand and the longer body provides the option of a two-hand grip. Equipped with a backing pad, which has a central air inlet. This results in improved air flow and helps extract dust away from the center of the tool even faster.

3M™ ACCUSPRAY PPS™ High Output Mini Pressure Cup

Use this PPS H/O Pressure Cup in place of gun-mounted - or detached - 1 and 2 quart pressure pots. The PPS (Paint Preparation System) uses a rigid cup and collar which hold a disposable liner and a lid with an integral strainer.

- Designed for gravity feed or traditional siphon spray gun systems
- Eliminates the need for separate mixing cups and filters
- Offers up to 70% reduction in solvent use for gun and parts cleaning
- Reduced hazardous waste generated by equipment cleaning
- Virtually any spray gun can be adapted to the PPS paint cup system

NEW!

3M™ ACCUSPRAY PPS™ High Output Pressure Cup and Collar

This product is intended for use in place of metal cups on most pressure cup guns. Cleaner, faster spray painting system that is safe from outside contamination.

- Leftover paint can be stored for later use without any need to remix
- Range of cup and liners sizes that enables the painter to mix only the desired amount of paint required for a particular job
- Paint gun can spray at any angle, including upside down
- Internal vacuum within the liner allows the container to collapse around the paint, so there is always paint pressure on the nozzle
